Beau McClain

Web Developer

Web Developer with a background in accounting and financial administration as a certified public accountant. Possesses a strong analytical mindset and attention to detail, leveraging skills in HTML, CSS, and JavaScript. Years of professional experience have built a solid foundation in communication, time management, team building, and leadership. Continuously expanding their knowledge and enthusiasm for learning new skills, they utilize new tools to drive innovation and support a team's goals and objectives.

Personal Project

○ myFlix - React Movie Client & API

2024

- Created a non-relational database using MongoDB to store user and movie data.
- Used Mongoose to interact with and build a REST API with Node.js and Express.
- Wrote clean and concise code, documentation, and API endpoints, which were tested with Postman and hosted on Heroku.
- Created two single-page, responsive front-end applications. One utilizing React library and one using Angular framework and materials.
- Users are able to create accounts, browse movie library, save favorite movies, and edit their user profiles.

Experience

○ Utility Accounting *Accounting Analyst/Specialist*

2019 - 2023

Multiple Employers (listing available upon request)

- Develop and maintain complex spreadsheets and analytical models.
- Research and implement new regulations to update, develop, and maintain high priority journal entries.
- Lead key control meetings to communicate with various departments historic and future regulatory changes.
- Document budget and process improvements to enhance efficiency and ensure deadlines and goals were consistently met.

○ Accounting and Fund Administration *Fund Controller*

Standish Management LLC | 1191 2nd Ave. Suite 600,
Seattle, WA 98101

2022 - 2023

- Train and mentor junior staff in all aspects of fund administration and accounting across multiple clients.
- Coordinate across primary point of contact between managers, associates, and clients to deliverables and deadlines are met.
- Review associate workbooks to ensure completeness and accuracy.
- Read, understand, and interpret various client legal documents in order to apply applicable methodology to specific fund transactions.

○ Public Accounting *Senior Audit Associate*

KPMG LLP | 701 W 8th Ave. Unit 600, Portland OR

2016-2019

- Perform preliminary analytical review of client trial balance and general ledger to identify inconsistencies, errors, and risk to plan audit procedures.
- Write internal control process narratives relating to financial reporting and material accounting groups.
- Execute planned test of details and analytical procedures on material accounts to ensure accuracy and completeness of accounts.
- Led the engagement team from the planning stage through to the completion of financial statements and the filing of the audit report.
